

Horizontal Condominium Homes

In this project There is 2 types of house the first one is smaller than the other one, and the Floor Plan is just above. Just like the other house this one have 2 floors, garage for two cars in the entrance have a lavatory on the left and on the right the stairs that brings access to the second level floor. Straight ahead the entrance of the house you can see a big living room separated for the furniture and on the right the dinning room that give easily access to the kitchen and the office that have a individual bathroom. Getting out the house by the living room you will see a pretty garten with a balcony and a pergola that protect from the sun.

The Project of the houses was done by a necessity program created by myself, it is for a family with a bigger room for the parents and 2 smaller rooms for the kids, with a visit room downstairs near the kitchen. A TV room with acustic isolation. The house have a garage for 2 cars. A deck with swimming pool and barbecue.
