Podiatry

At Essendon Podiatry Clinic, we handle a wide variety of foot and lower leg problems. If you are experiencing a persistent sporting injury, or any pain when walking, our friendly staff are ready to assist you. Taking proper care of your feet and lower leg is our primary focus.

Orthotics

You won't be disappointed when you experience the difference of custom orthotics. Our podiatrists' unique credentials are leading the way in design and comfort to deliver the most innovative custom designed orthotic devices in Australia.

Sports Injuries

If you sincerely want to be a winner in your chosen sport, carrying a foot or lower leg injury will only limit your performance and cause more damage. Specially designed custom orthotics that matches your shoe and activity will provide the comfort and support for you to excel in your chosen sport.

Children's Foot Care

It's no secret that many adult foot problems begin in childhood. As you know, in the early years of a child's life, the feet are rapidly changing. Essendon Podiatry Clinic recognises the importance of preventing the existence of long term foot and lower leg problems in childhood.

Laser Podiatry

Discover the latest in laser therapy innovation for treating fungal nails. Laser Podiatry Therapy is essentially the most efficient treatment of fungal nail. Indeed, this proven new therapy far outweighs the use of the less affective over the counter antifungal ointments.
